XORAN[®]
Xoran makes the complex simple

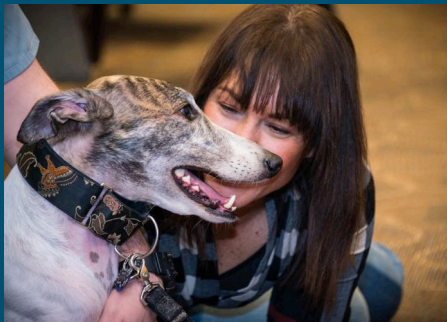

Illuminate Treatment Planning

- > See what you've been missing
- > View anatomy from any angle with precision
- > Eliminate surprises and detours in treatment

Cater to pet parents

- > Share CT scans in real-time with clients to discuss diagnosis and treatment options
- > Pets and parents will be your biggest fans
- > Same visit non-invasive procedure for faster diagnosis and treatment

Weight	Rotation	Slice	Reconstruction	Field of View
520 lbs. portable, wheeled chassis	Full 360-degree gantry rotation	As low as 0.1mm	Less than a minute	24cm cross-sectional FoV

“Xoran’s VetCAT is a huge advantage for my practice and patients. I’m able to diagnose patients quickly and offer treatment options to owners within the same visit. It’s a virtuous cycle of better patient care and client satisfaction.”

– Mike Canfield DVM, DACVD
